PROFESSIONAL SUMMARY

Customer Success & Account Management Leader with seven years of experience managing complex books of business across global payments and fintech. Track record of building CS functions from the ground up, scaling retention playbooks, and driving multi-million-dollar account growth. Fluent in Portuguese and French.

- Scalable CS Operations: Co-founded EBANX's initial Customer Success function from zero; designed early onboarding playbooks, churn monitoring workflows, and company-wide NPS programs.
- Enterprise Portfolio Ownership: Managed books of business up to 300 international merchants, personally overseeing high-volume enterprise accounts processing ~$300M annually
- Cross-Border Fintech & Founder Mindset: Spent 4 years co-founding a cross-border payments platform, managing relationships with 18 institutional financial partners across onboarding, compliance, and delivery

SKILLS

Customer Success & Account Management: Portfolio Ownership, Revenue Retention & Expansion, Onboarding & Lifecycle Playbooks, Churn Risk Mitigation, Account Health Monitoring, NPS Programs, Executive Stakeholder Management, Data-Driven KPI Reporting.

Fintech & Payments Domain Expertise: Cross-Border Commerce, Cards, Installments, Bank Transfers, Mobile Money, Wallets, Stablecoin Settlement, FX, Payouts, Emerging Market Payment Ecosystems.

Tools: SQL, Tableau, DBeaver, JetAdmin, Salesforce, HubSpot, REST API, Excel, Figma, Webflow, Claude.

EXPERIENCE

COO AND COFOUNDER 04/2021 to 03/2025
Betaramps, United Kingdom

- Owned customer and partner success end-to-end across 18 institutional accounts (including Circle, Bitso, Yellow Card, and AZA Finance) across Latin America and Sub-Saharan Africa.
- Aligned internal AML, CFT, data privacy, and merchant agreement policies with institutional onboarding requirements, ensuring 100% partner compliance and retention.
- Built and scaled payout networks across 31 countries; driving a 4x MoM increase in TPV and cutting end-to-end processing costs by 40%.
- Queried transactional data in DBeaver and engineered real-time KPI dashboards in JetAdmin; proactively reallocated transaction routing to high-performing partners to safeguard SLAs.
- Designed end-to-end automated AML decisioning workflows that automated 95% of manual transactions and delivered segregated customer custody ahead of Central Bank of Brazil VASP regulations.

SALES MANAGER 12/2020 to 05/2021
Cellulant, Kenya

- Evaluated technical and commercial feasibility for a $100M enterprise Payment Service Provider (PSP) deal, advising against onboarding due to unviable FX pricing/settlement risks, protecting 3+ months of engineering resources.
- Synthesized complex enterprise merchant demands into actionable product feedback regarding pricing transparency, local payment rails, and USDT/NGN liquidity hedging structures.
- Sold specialized e-commerce payment infrastructure across Sub-Saharan Africa, positioning cards and bank transfers alongside mobile money rails (M-Pesa, MTN MoMo, Orange Money).

SENIOR ACCOUNT MANAGER AND CUSTOMER SUCCESS 06/2018 to 03/2019

EBANX, Brazil

- Managed performance and health for a 300-merchant portfolio processing in Brazil and Mexico, including scaling a fast-fashion account to ~$300M annual TPV while maintaining chargebacks, refund rates, and fraud within strict 1% thresholds.
- Served as one of four founding members of EBANX's initial Customer Success division; co-authored lifecycle playbooks, established account handover protocols, and owned the company's first Net Promoter Score (NPS) program.
- Architected an automated cross-border expansion workflow combining HubSpot, Tableau, and API triggers; lifting quarterly merchant market activations by 18% and reducing support tickets by 67%.
- Partnered with Product engineering to reroute traffic based on BIN/acquirer decline analysis without manual code changes; reduced chargebacks by instituting native refund paths within merchant support flows.

BUSINESS DEVELOPER 12/2016 to 06/2018

EBANX, Brazil

- Led the regional integration of installment payments across Latin America, driving a 126% MoM increase in average order value (AOV) for merchants in Mexico.
- Closed and onboarded a major global e-commerce enterprise entering Latin America, leading qualification, commercial negotiations, compliance verification, technical integration, and go-live.
- Acquired 80+ international merchant accounts across inbound, outbound, and referral channels, utilizing Salesforce to generate over $30M in new processing volume within 18 months.

PROJECTS

- **Autonomous Docket Monitoring Agent, 2026:** Built and deployed a Python cron agent on a Linux VPS using Playwright, state hashing, and the Anthropic API to automatically track public dockets, summarize updates into clear English, and deliver automated email alerts.
- **Award-Winning Venture Launch Plan | McCombs School of Business (UT Austin), 2026**: Won judged venture competition by developing an end-to-end launch plan featuring customer success playbooks, value delivery canvases, operational risk registers, hiring schedules, and a 36-month pro forma.

EDUCATION

- MS, Technology Commercialization | University of Texas at Austin | 05/2026 | Honors Graduate, GPA 3.91
- MSc, Finance, Investment and Risk | University of Kent, United Kingdom | 09/2016 | Distinction, GPA 3.7
- Credential of Readiness (CORe), Global Business | Harvard Business School | 06/2020

AWARDS AND LANGUAGES

- **Academic Awards** (UT Austin MSTC 2026): Best Negotiator | Most Collaborative Student
- **Languages:** English (fluent) | Portuguese (fluent) | French (fluent) | Wolof (fluent) | Spanish (elementary)
